NVIS GREEN A MARINE LIGHTING

Introducing a water-tight marine light plate that incorporates Javelina Corporation's Series II LED reverse engraved acrylic panel, light pipe technology and sealed for marine use.

The Series II Light Plate is machined from solid Nylatron material providing years of scratch resistant, trouble free operation with excellent temperature stability. No paint to weather, peel or corrode, the panel is perfectly suited for marine applications where space is at a premium and lighted instrument identification is essential.

*Custom Size, graphics
and mounting configuration available*

Specifications:

Weight: <9.5 grams

Voltage: 5-28 vdc.

Current: <9.5 ma @ 28 vdc.

Dimensions:

Height: .700 (inches)

Width: 2.050

Depth: .270

PCB: .030 G-10 FR-4 (flame retardant)

Termination: Wire receptacle pins crimped to PCB, soldered

PCB Sealant: MIL-A-46146

Graphics: Laser Engraved (rear)

Front Panel Surface: .060 Impact Acrylic

Faceplate Adhesive: .005 mil 3M468

Mounting: (2) 4-40 x 3500 silicone washered phillips pan head through stainless insert tubes
